DENTONIA RESOURCES LTD. NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIODS ENDED FEBRUARY 28, 2002

(Unaudited - see Notice to Reader)

NATURE OF OPERATIONS

The Company is in the business of acquiring and exploring mineral properties. There has been no determination whether properties held contain mineral reserves which are economically recoverable.

The recoverability of valuations assigned to mineral properties is dependent upon the discovery of economically recoverable reserves, the ability to obtain necessary financing to complete development, and future profitable production or proceeds from disposition.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in accordance with generally accepted accounting principles in Canada, on the assumption that the Company is a going concern. The ability of the Company to continue as a going concern is dependent on its ability to obtain necessary financing to discharge its liabilities as they become due, and upon attaining future profitable operations.

Because a precise determination of certain assets and liabilities is dependent on future events, the preparation of the financial statements involves the use of estimates based on careful judgement. The financial statements have, in management's opinion, been prepared within reasonable limits of materiality using the significant accounting policies noted below:

a) Investments

The investments in DHK Resources Ltd. are recorded using the equity method of accounting.

b) Capital assets

Capital assets are stated at cost less accumulated amortization, which is recorded over the useful lives of the assets on the declining balance basis at the following annual rates:

Computer 30% Furniture and fixtures 20%

c) Mineral properties

Costs relating to the acquisition and exploration of mineral properties are deferred until the properties are placed into commercial production, sold, or abandoned. These costs are to be amortized over the estimated useful life of the property following commencement of production, or written off as properties are sold or abandoned.

d) Foreign currency translation

Transactions and balances in currencies other than the Canadian dollar are translated using the temporal method. Accordingly revenue, expenses and non-monetary balances are translated at the rate of exchange prevailing at the transaction dates, and monetary balances are translated at the rate prevailing at the balance sheet date with resulting exchange gains and losses being included in the determination of income.

e) Loss per share

The loss per share is calculated on the weighted average of shares outstanding during the period.

f) Fair market value of financial instruments

The carrying value of cash, accounts receivable and accounts payable approximate fair market value because of the short maturity of those instruments.

DENTONIA RESOURCES LTD.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIODS ENDED FEBRUARY 28, 2002

(Unaudited - see Notice to Reader)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Interim Financial Statements

These interim unaudited financial statements have been prepared on the same basis as the annual financial statements and in the opinion of management, reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the Company's financial position, results of operations and cash flows for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for a full year or for any future period.

3. INVESTMENTS AND ADVANCES

The Company owns a one-third interest in DHK Resources Ltd. ("DHK"), a Northwest Territories corporation which has various interests in potentially diamond bearing mineral claims in the Lac de Gras area of the Northwest Territories.

The investment has been written down to nil as a result of recognizing the proportionate share of the losses of DHK.

MINERAL PROPERTY

The costs capitalized relate to the Company's 75% interest in 11 claims in the Lac de Gras area, North West Territories.

The Alley of the Marketine

Options and warrants:

Options have been granted and are exercisable in whole or in part until December 10, 2002 allowing the holders to purchase a maximum of 1,195,000 common shares at \$0.30 per share.

Warrants have been granted and are exercisable in whole or in part until expiry allowing the holders to purchase a maximum of 1,725,000 common shares at prices ranging from \$0.10 to \$0.25 per share. Expiry dates range from March 27, 2002 to August 8, 2003.

7. RELATED PARTY TRANSACTIONS

Included in the determination of net loss for the period are salaries to a director recorded at their exchange amounts of \$12,000 (2000 - \$21,000).

8. LOSSES CARRIED FORWARD

The Company has approximately \$1,783,000 in non-capital losses which can be applied to reduce future taxable income, expiring as follows:

	2 '	•
2002		393,000
2003		308,000
2004		373,000
2005		242,000
2006		201,000
2007		144,000
2008		122,000

Cumulative Canadian Development and Exploration Expenses of approximately \$1,751,000 are available to reduce future taxable income.

Net capital losses which can be applied to reduce future taxable gains amount to \$304,000.

TOTAL: <u>1,725,000</u>			

- 4.(d) No shares are held in escrow
- 5. The current directors and officers are:
 Adolf A. Petancic, Director and President; Gerald G. Carlson, Director;
 James E. McInnes, Director and Secretary; Brian Weir, Director;
 Martyn Fowlds, Director.

QUARTERLY AND YEAR END REPORT

BC FORM 51-901F (previously Form 61)

DENTONIA RESOURCES LTD.

For the Six Months ended February 28, 2002

SCHEDULE C: MANAGEMENT DISCUSSION

GENERAL MATTERS, DESCRIPTION OF BUSINESS AND ANALYSES

Diamond Exploration, Lac De Gras, NWT and Other Matters

Dentonia Resources Ltd. (the "Company"), is a 1/3 equity holder in DHK Diamonds Inc. (DHK), a private NWT incorporated company, which is the current operator of DHK, WI and WO claim blocks, situated at Lac de Gras, NWT, Canada.

In February 2002, the Company, on its own account, staked the TT1-12 claims, or approximately 28,000 acres, within the WO claim block, at a cost of approximately \$16,000, however, 3 of these claims have been over-staked by a 3rd party; a challenge will be launched.

SouthernEra Resources Ltd. and Aber Diamond Corporation made their pro rata contributions, being 10% and 15% respectively, however, Horseshoe Gold Mining Inc. and Kettle River Resources Ltd., the other two equity holders in DHK, choose not to participate and made counter offers, these counter offers were insufficient to cover the actual pro rata staking costs of the TT claims, or not within a payment schedule as proposed by the Company and were rejected. In fact, a "negative consideration" was offered, which was rejected by the Company, leaving Horseshoe and Kettle River without any interest in the TT claims.

The TT claims contain within their boundaries some of the Falcon or other geophysical targets, some with kimberlite indicator mineral (KIM) support.

To dispel any contrary notions, as expressed elsewhere, the agreement between Kennecott, on the one hand, and DHK, Archon Minerals Limited, and BHP Diamonds Inc. on the other hand, is, in the opinion of management of the Company, a binding and enforceable contract, not only based on the agreement dated August 11, 2000, as modified by letter agreement dated August 31, 2001, all signed by the appropriate officers and managers, but also on the principles of equity, such as "proprietary estoppel", well established in the Province of British Columbia as a legal tenet.

To quote the B.C. Court of Appeal:

"--- that proprietary estoppel is a modern term used to describe estoppel by encouragement or by acquiescence one party knowingly encouraging another party to act ---".

In the present case, Kennecott did not only signed the relevant agreements but actively encourage DHK to organize the Falcon Survey, and assisted in this survey by providing geophysical and geochemical data to BHP's personnel, who reinterpreted this data and incorporated it in the overall Falcon data, resulting in 22 potential kimberlite targets.

To recapitulate, under the terms of the above agreement Kennecott must convey its 40% interest in the DHK, WI, and WO claim blocks, and 100% interest in certain claims situated at Pellatt Lake, north of Lac de Gras, to DHK Diamonds Inc., subject only to a 1% gross overriding royalty.

To date, Kennecott has failed to make a formal assignment of these interests.

Referring to the Company's news release of March 11, 2002, announcing the mobilization of Archon's drill crew, to test the 22 targets on the WO claim block, with a track mounted rig, these tests have now been postponed to the middle May/June, 2002.

The postponement is due to an unusual minimal snow cover during this spring, the track-mounted drill rig could not be moved, from location to location, without being in violations of the conditions stipulated in the "Land Use Permit".

One hole was drilled, off the winter road, to test a lake bottom gravity low, with negative results; this target had no other geophysical support only down ice, unexplained, KIM support.

Due to the above constraints, further testing had to be abandoned but will, as stated above, be resumed and carried out, with a helicopter transported lighter drill rig, in May/June, 2002.

Alternatively, BHP has offered to drill, in June five high priority targets, at an estimated cost of \$200,000.

OPERATIONS AND FINANCIAL CONDITIONS

The Company incurred an administrative expense of \$27,659 during the three-month period expiring on February 28. The Company was carried for its pro rata exploration expenses of the Falcon Gravity Survey over the WO block, which totaled \$386,000, and is being carried for the drill tests of the Falcon targets.

FINANCING

During the period under review 50,000 warrants at a price of \$0.10 a share were exercised, and a private placement of 1,250,000 units at a price of \$0.05 were completed, netting the Company \$67,500.

LIQUIDITY AND SOLVENCY

As at February 28, 2002, the Company had \$17,419 in cash, and a further financing in the near future will be necessary for the day-to-day operation of the Company.

SUBSEQUENT EVENTS

Testing of Falcon targets on the WO block at Lac de Gras, NWT, at sole cost of Archon Minerals Limited, to begin in May 2002.

INVESTOR RELATIONS

No particular investor relations activities were undertaken by the Company during the period under review except dissemination of press releases and exploration reviews to the media, interested shareholders, investors, and brokers, and the maintenance of a website: www.dentonia.com.
